

# Fuel teacher growth, boost student outcomes

## Professional development

Set teachers up for consistent, daily growth with the ability to get feedback and reflect on their practice anytime, anywhere.

Go beyond observations—get a fuller picture of teacher performance with authentic data from students and teachers.

Personalize and scaffold PD for each teacher, helping them build confidence and skills at their own pace.

## Instructional coaching

Improve instruction faster with automatic, real-time feedback to your teachers aligned with custom practice standards.

Access an easy-to-read dashboard full of data and insights to fine-tune your coaching and track progress over time.

Upgrade your classroom recordings with high quality video and audio capture—even better than the old Swivl Robot.

## High-quality instruction

Get students thinking out loud, while MirrorTalk AI measures their understanding in real-time and gives them personalized feedback.

Spot the gaps in mastery of learning standards and pinpoint where learners need extra support.

Arm teachers with data that drives fast interventions to close learning gaps and keep every student on track.

## Eligible for Title I Funds

As powerful tools for improving instruction and supporting teacher development, M2 and MirrorTalk qualify for Title I funding.
