

Reflectivity

A tool that **socializes reflection** to help all of your teachers be more adaptable.

Give teachers autonomy

Reflectivity was built to strengthen existing professional development programs in schools and districts by giving teachers choice in what skills to develop.

- ✓ Share thinking about skills + steps taken to develop them
- ✓ Build dynamic communities around common skill interests
- ✓ Motivate growth with encouragement, conversation + feedback

Robust insights

Reflectivity makes it easy to track the progress and growth of teachers by collecting written and video evidence throughout their reflective processes.

**Reflectivity
is a whole community
built into one system
- I love it.**

Upper School Dean

Our solutions are trusted by over 75,000 schools around the world
