Quickstart guide: PLC's

How to use this guide

- Focus on 1 topic from your PLC
- Coach or admin creates reflection assignment in MirrorTalk (use sample objectives or create your own)
- Coach/admin shares assignment link with teachers
- During the last 2 minutes of the meeting or by the end of the day, teachers complete the reflection from MirrorTalk.ai on their laptops or the MirrorTalk app on their phones.

Why add MirrorTalk to your PLC?

- Document thoughts and learning on PLC topics
- Insights indicate where support is needed and enhance coaching conversations
- Gather feedback around success' and challenges
- Track growth in PLC topics over time

Sample objectives

	TOPIC Data-driven instruction	OBJECTIVE Copy this into mirrortalk.ai in the learning objective space
1	Various forms of student data	Teachers can analyze and interpret various forms of student data (e.g., formative assessments, summative assessments, and observational data) to identify learning trends and gaps.
2	Designing interventions	Teachers will design and implement instructional strategies and interventions based on data analysis addressing students' needs.
3	Monitoring student progress	Teachers will collect ongoing data to monitor student progress and adjust instructional methods and pacing to maximize learning outcomes.
4	Collaboration to support students	Teachers will collaborate with colleagues, administrators, and families to share insights from data and co-develop strategies for supporting student success.
