

Educators get more out of M2 with their own license

M2 is designed to be an intelligent co-teacher for every classroom.

By providing each educator, coach, and administrator a license, you are ensuring equitable access to growth opportunities and creating a safe space for them to continuously develop their skills for the benefit of their students.

This also makes it easy for educators to manage their own classes and learners' reflections — unlocking the full value of M2.

	Shared license	Your license
Core functionality Record video, access a live AI co-teacher, receive instant feedback	✓	✓
Privacy Feedback, transcripts, and recordings are not viewable by other teachers, coaches, or admin unless shared	✗	✓
Personalized feedback M2 learns every educator's unique style and delivers feedback tailored to their needs based on session history	✗	✓
Student learning insights Create classes, assign activities to students, and receive AI-powered learning data	✗	✓
Streamlined collaboration Create reflection activities for other educators to track individual teacher growth	✗	✓
Metrics and Dashboard View each educator's usage, progress, and development	✗	✓

Set every educator up for success

Connect with your account manager to explore individual, school-wide, and district-wide licensing options to get the most out of your M2 investment.
