

Deliver high-quality CTE instruction and engaging learning experiences

High-quality CTE instruction

- Instant feedback that helps CTE teachers navigate instructional decisions with confidence
- Tools for differentiated small group and station-based learning
- Multilingual support that keeps learning accessible and engaging for every student

Professional development & coaching

- In-the-moment and post-class feedback aligned to your CTE focus areas
- Easy-to-read dashboards with insights to guide coaching and growth
- Customizable rubrics to match program standards or industry expectations

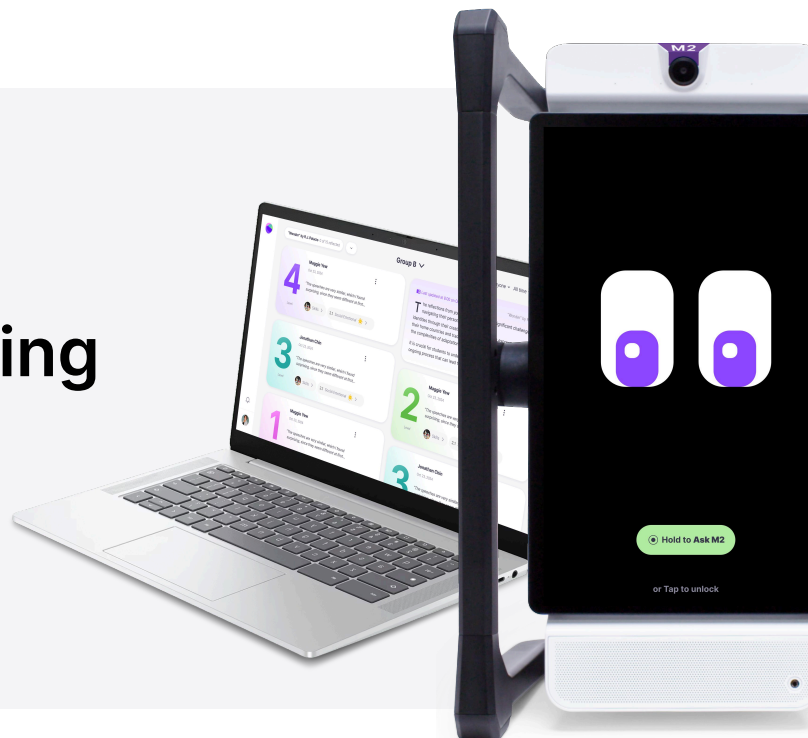

Student readiness & success

- AI-guided activities to strengthen career skills and critical thinking
- Immediate insight into student understanding and skill gaps
- Authentic student self-reflection captured through spoken assessments

Eligible for Perkins V funding

M2 and MirrorTalk qualify for Perkins V as tools that directly enhance CTE program quality, teacher effectiveness, and student achievement.

Let's talk

Find out how you can leverage your Perkins V funds to bring M2 to your CTE classrooms.
