

# Feedback request suggestions for teachers

Starting something new is easier with a little inspiration. This resource offers plenty of feedback ideas—the only limit to M2 is what you can imagine!

## Instructional strategies

- 1 I would like feedback on ways to differentiate instruction.
- 2 I would like feedback on my questioning techniques.
- 3 I would like feedback on how I keep students engaged during lessons.

## Classroom management & culture

- 1 I would like feedback on how I manage classroom transitions.
- 2 I would like feedback on how I establish clear routines and procedures.
- 3 I would like feedback on how I build a positive classroom culture.

## Student engagement & ownership

- 1 I would like feedback on how I could make lessons more student-centered.
- 2 I would like feedback on how I could encourage more student collaboration or team-based learning.
- 3 I would like feedback on how I can provide opportunities for student voice.
- 4 I would like feedback on how I can motivate reluctant learners.

## Content-specific & cross-content specific instruction

- 1 I would like feedback on ways to implement more writing into my lesson.
- 2 I would like feedback on how I support students in using evidence to justify their answers.
- 3 I would like feedback on how I incorporate inquiry-based learning in my subject.
- 4 I would like feedback on how I connect content to real-world applications.
- 5 I would like feedback on how I integrate computer science concepts into my lesson.
