

# Group Guide: How it works

With no prep, you can launch a guided off-screen activity or station with immediate feedback.

- ✓ Click “Guide” at the bottom of the screen
- ✓ Choose the type  
Q&A, Practice, Project, or select from Library
- ✓ Answer a quick prompt from M2  
about your goal and the materials students will use
- ✓ Preview and click “Launch”  
M2 will handle the rest.

Students gather at M2 with clear, step-by-step instructions, working together in groups and sharing what they learn along the way.

After, **students and teachers get feedback immediately**, making it easy to assess understanding and plan interventions.
