

M2

Multi-dock

Empower every learner with personalized audio support

headphones connected to microphones deliver real-time translations in any language, ensuring no student feels left behind.

Every voice matters

and with multi-remote recordings, capture every conversation happening in every corner of your classroom.

Unlock the story of each discussion

through isolated audio tracks that let you revisit and reflect on the unique learning happening everywhere.

Key features

Docks 3 remotes

Charge and connect 3 remotes at once

Simultaneously charge, pair, and update all 3 remotes with ease.

Compact, integrated design

Mounts neatly on the back of the M2 for a seamless setup.

Extra USB-C port

Connect additional accessories.

What's included

Docking station

3×3.5mm to USB-C adapters: Connect any standard analog headphones to your remotes.
