# M2 Lesson Internalization Questions

Plan, rehearse, and refine your lessons with M2.

Think through how you will teach the lesson, not just what you will teach.

📌 **What is the most important thing students should learn in this lesson?**

_____
_____
_____
_____

🧩 **How will I explain or model this concept so students can clearly understand it?**

_____
_____
_____
_____

🔍 **Where will I pause to check for understanding or student thinking?**

_____

_____

_____

_____

🧭 **What challenges or misconceptions might students have, and how will I address them?**

_____

_____

_____

_____

✅ **What will success look and sound like for students by the end of the lesson?**

_____

_____

_____

_____

💡 **Tip**

Voice your thoughts as you interact with M2. Articulating what you're working through sharpens your own problem-solving while helping M2 grasp the full picture and provide better-targeted guidance.
