

M2 enhances PLCs

PLC structures vary across organizations, schools, and teams. M2 helps teams build a shared picture of productive PLC work - focused on student evidence, instructional decisions, and follow-through.

1

Clarify the work

- Use custom PLC criteria and rubrics to define productive collaborative work.
- Give leaders and teams clear look-fors without requiring one meeting format.

2

Analyze together

- Capture the PLC conversation and the decisions the team makes.
- Use Ask M2 or Live Tips to focus questions and deepen discussion.

3

Connect evidence

- Bring recorded lessons, student work, or assessment evidence into the PLC.
- Reflect on next steps and return with evidence of what changed.

A practical place to begin

- ✓ Add 3-5 PLC look-fors
- ✓ Capture one PLC
- ✓ Review feedback with the leader or team
- ✓ Choose one improvement
- ✓ Add other supports as needed
